GOLD MOUNTAIN NEWS.

Copper Belt Gets Ledge in the Shaft-

Vein Cut in Perjue-Surprise.
Richfield, Dec. 4.-L. H. Bartholomew, superintendent of the Coppe The directors of the Butler-Liberal ompany met yesterday afternoon and oclared a dividend of 1/2c per share on the capital stock of the corporation. It made payable on the 21st of the prestit month, with transfer books to close a the 18th and reopen on the 22d. As the company is capitalized for 500,000 lares, the dividend will aggregate 2,500.

That the company is perfectly able that the company is perfectly able to pay the dividend is shown by the lict that when ores now in transit and assold are accounted for, the treasury ill contain, in addition to the 22,500, o less than \$25,000. The dividend was of ordered paid because the directors, a majority of them, at least, were enxious to jump into the dividend list this time, but because of the fact that when the consolidation was made ith the Liberal a verbal promise was added that when the company had a triplus of \$10,000 or over a payment ould be made.

What the company will do in the furtier and expected to the fact when the company had a triplus of \$10,000 or over a payment ould be made.

What the company will do in the furtier and expected to the Mary and the first that was struck last summer. It is four feet wide and looks fine. They have not, as yet, received any assays, but without any doubt, the ore will run up well.

L. H. Outzen went to Elichem the Copper Series and the Copper Series and the old vein in the shaft about eighty feet from the sunface and that it is thirty-four inches wide and that it is thirty-four inches wide, and still increasing as they go in on it. He has been cross-cutting and drifting and is now but a few feet from the shaft on the north side. They have not had an assay as yet, but the ore will run high in silver with some gold. They will continue to drift on this vein all winter and expect to bring the property back into the shipping list in the near future.

Max Krotki mide a trip to the Perjue-Surprise property at Maryavale this week and brings back the information that the vein has been encountered in the shaft, sunk to tap the

mident that the ground carries the ce, and we are determined to open it p."

err and Pacific stocks were not sharers in the activity and strength, and the southwestern and southern stocks concerned in the cotton movement showed positive depression. The total dealings rose above 1,000,000 shares, and this enormous business was largely congested in United States Steel preferred and in Brooklyn Transit and Pennsylvania. The shorts in United States Steel preferred believed that the buying in that stock was for account of the managers of the recent bond conversion syndicate. The known means of information of inside affairs of the corporations possessed by this syndicate was

agers of the receit bond conversion syndicate. The known means of informations possessed by this syndicate was sufficient to make this determined absorption of the stock terrifying to the bears. No specific news developed to account for the movement which rapported an extreme of 3½. The stock's net gain was 2. The volume of dealings in Pennsylvania was also enormous throughout the day, but the price movement was narrow. The extreme rise was ¼ and the stock closed ¼ higher than last night. The taking of profits here was very obvious.

The buying of stocks for London account helped to weaken the exchange market, and both discount and the price of gold were lower in trade, but the money rate ran off in this market so that no gold was taken in London for New York. Preliminary estimates indicate that the receipts of currency from the interior on the direct express movement reaching something less than \$3,000,000.
